Per week, (payable to Carriers)	[illegible]	Per week (payable to Carriers)	10 cts.
10 Copies to one address	[illegible]	This edition contains all the reading matter of the morning but in a smaller sheet.	

THE CHICAGO TRI-WEEKLY TRIBUNE is published Monday's, Thursday's and Saturday's, in time for the earliest morning mails. It is of the same size with the large Morning Daily and contains all the reading matter of two days. This is an excellent edition for residents in the country. It will be furnished to mail subscribers at the low price of $4.00 a year in advance.

THE CHICAGO WEEKLY TRIBUNE contains all the valuable reading matter of the Daily, comprising the latest intelligence by Telegraph and the Mails, Market Reports, Literary Reviews, one choice Story each week, and excellent Home Articles, and furnishes more reading than the large sheet of the New York Weekly Tribune. It is published every Friday at the low price of $2.00 a year in advance. Ten copies to one address, $15.00. Twenty Copies to one address $25.00.

CHICAGO DAILY TRIBUNE

The Publishers of THE TRIBUNE deem it not inappropriate at this time to make a brief statement of their purpose and aim.

1. The first essential of a good Daily consists in its being a Newspaper. News—accurate, reliable, varied and fresh, is its life-blood. The furnishing its Readers with the latest and best information of such of the manifold changes in incidents and developments, occurring throughout the world as are of special interest to the people of Chicago and the West, will be the leading characteristic of THE TRIBUNE.

2. The candid and thorough discussion of those principles which underlie all faith, is also an essential of a good journal. In this department THE TRIBUNE will strive to uphold the Truth and the Right. Established on an independent foundation, it will seek to maintain its position by the fair expression of considerate, yet decided opinions. It will defend whatever it regards as lawful, just and sound, and discountenance all that is false, factitious and fraudulent.

For the efficient carrying out of its design, THE TRIBUNE is arranged in eight Departments, to each of which a competent and responsible person is wholly devoted. Of these the Commercial Department is under the charge of T. A. STEWART, Esq., one of the founders of THE TRIBUNE, whose established reputation throughout the West, as a Commercial Editor, saves the necessity of commendation. The Home Department, which is edited by a Lady, has been added lately for the sake of making THE TRIBUNE a welcome visitor to the HOME CIRCLE, as well as to the counting room and the office.

4. Arrangements are completed, for Correspondence, from New York, Washington, Philadelphia, Baltimore, Boston, Cincinnati, New Orleans, St. Louis, and the Capitals and larger towns of our own and neighboring States. Letters will be received also, during the year, from at least four regular correspondents in Great Britain, France, Italy and Germany. THE TRIBUNE'S corps of Letter Writers has been made up with care, and includes gentlemen of undoubted ability, accomplished education, and high standing in the country.

5. THE TRIBUNE will support a system of national policy that shall defend our honor abroad and maintain our credit at home. It will advocate a discriminating Protective Tariff; Harbor and River Improvements; the donation of the Public Lands to actual settlers; the solution of agitating Foreign Questions by honorable negotiation, unembarrassed by lawless encroachment; direct appeal to the PEOPLE, so far as possible, on public questions and public officers; and the leaving the South to bear the heavy burdens and heavier responsibilities of its peculiar institution, without irritating interference by the North for its removal, or aid from the national government for its extension.

Its hope of a high destiny for this Land of Freedom is founded on its Faith in Progress as the best Inspirer, in the Past as the best Teacher, in the People as the best Sovereigns, in Whig Principles as the best Policy, in Republicanism as the best System, in Christianity as the best Regenerator, and in THE WEST as the great arena.

Hydropathic Retreat.
DR. J. WEBSTER has recently opened a house on the corner of Indiana and Rush sts. for the reception of patients wishing Hydropathic treatment. As the salubrity of the air is most agreeably modified by the gentle breezes from the adjacent lake, a more healthful and salubrious locality can seldom be found.
In Obstetric Practice, and in those weakened and diseased states of the system, which frequently make life a burden to many of our most useful women, he has had unparalleled success with Water Cure treatment.

NEW AND VALUABLE DISCOVERY.
Great Improvement in Artificial Teeth.
DR. J. A. KENNICOTT, No. 96 Lake street, having purchased ALLEN'S PATENT IMPROVED METHOD OF SETTING MINERAL TEETH, takes pleasure in offering to his patrons a REAL and SUBSTANTIAL IMPROVEMENT, which only needs to be examined to be appreciated, and unqualifiedly approved. The advantages of this invention are PERFECT CLEANLINESS and freedom from any metallic or other unpleasant taste, great strength, lightness and durability. The teeth are secured to the plate by means of a strong mineral cement, which forms a perfect union of the teeth and plate, and an EXACT IMITATION OF THE NATURAL GUMS, giving a life-like appearance that it is impossible to obtain in any other way. For references, see MEDALS and DIPLOMAS awarded to Dr. K. as premiums for the Best Dental Mechanism, also, specimens of work at his office, No. 96, corner of Lake and Dearborn streets, near the Tremont House. jy27

SOMETHING NEW.
A VERY great and decided improvement in the science of Dentistry, at Dr. W. H. KENNICOTT'S Office, need only be seen to be properly appreciated by any one whoever wore artificial teeth. One of the great points gained in this invention, is the entire union or fusion of the plate with the teeth, so that the whole is one entire piece, smooth as a china cup and as easily cleaned, there being no space anywhere for food to find a lodgment, consequently no offensive taste or odor will obtain from their use.
Wm. H. Kennicott having obtained Dr. Allen's patent and a full course of instructions from Dr. Taylor, of Cincinnati, is now prepared to offer a real improvement to the public.
OFFICE—120 Lake Street. jy1

DENTISTRY.
DR. H. K. KELSEY, Surgeon Dentist, would render his thanks to the citizens of Chicago and vicinity, for the liberal patronage extended to him, and by close application to his profession, would solicit a continuance of the same. All operations performed in a satisfactory manner or NO PAY. Particular attention given to the insertion of Full Sets of Teeth; and all persons desirous of supplying themselves with Artificial Teeth, would do well to give Dr. K. a call at 138 Lake street, over Murray's Mammoth store. no28tf

ARCHITECT, No. 118 Lake street, over T. B. Carter's store, Chicago, Ill.

Furniture and Chairs.
THE undersigned has leased Store No. 171 Lake street, for the purpose of transacting a Wholesale and Retail FURNITURE and CHAIR business. His warerooms will be completed and filled with a heavy stock in season for the early Spring trade, having now completed and in operation his new and extensive steam Establishment in manufacturing Furniture and Chairs of every variety of style and finish, adapted to city or country trade. Convinced by experience that manufacturing by hand, or on a small scale by inferior machinery would not enable him to compete with Eastern markets, he has introduced every improvement in labor saving machinery requisite to despatch, durability and style. The manufacturing is conducted by Messrs. Bragg & Kellogg, who are extensively known as efficient and practical mechanics, well acquainted with the wants of this market and the West generally, they pledge themselves that no articles shall be allowed to leave the Factory which they are not willing to warrant as superior in point of durability, workmanship & finish.
He would respectfully call the attention of the trade, Hotel keepers and others to his extensive stock, before purchasing elsewhere.

Triumph of Art.
A BEAUTIFUL achievement has just been attained in the art of manufacturing
CARPETS.
producing an entirely new effect, far surpassing that attained in the ordinary quality of Ingrain and Three Ply.
The article produced is a TAPESTRY INGRAIN of superior beauty and elegance, the peculiarity of the invention consisting in the fact that it is parti-colored in the yarn, producing a new and beautiful effect. It has been patented both in this country and Europe, and bids fair to produce a new era in the history of Carpets. Specimens may be seen at the Carpet Rooms of
FRANCIS CLARK, 168 Lake st.
where can also be found the best assortment in this market, of all the new and beautiful styles of Carpets. au24

CHICAGO MANTILLA EMPORIUM,
142 Lake Street.
L. D. OLMSTED & CO.,
HAVING opened in connection with their Store a department for the manufacture of MANTILLAS, CLOAKS, SACKS, &c., are now prepared to offer inducements to purchasers in this branch of their trade which cannot be surpassed if equalled by any establishment in New York, thus obviating entirely the necessity heretofore existing to visit the East in order to procure an article that will meet the taste of the purchaser, and be fashionable and elegant. In order to do this we have made arrangements by which we receive the Paris Fashion Plates monthly, simultaneously with manufacturers at the East, and can thus furnish our customers with every thing novel in style of cut and Trimming. We shall keep constantly on hand a large stock ready made up in every style, both mourning, half mourning and full dress; in all these varieties we can furnish any desired quality and price.
We have also a large stock of Silks and Trimming Goods, from which we will manufacture to order in any pattern which the taste of the purchaser may direct, and thus give them the assurance of having an article to suit in every respect. We intend to make this an important branch of our business, and devote special attention to it, and we will guarantee to furnish any article which we may make, 15 per cent. less than the same article will be furnished in N. York.
This department is under the immediate supervision of Mrs. Hanson, who has had long experience in the business and who will pay particular attention to all orders for making up. a22 L. D. OLMSTED.

MARBLEIZED IRON
MANTLES, COLUMNS, PEDESTALS, TABLE TOPS, &c., &c., &c.
THE SALAMANDER MARBLE CO. invite public attention to their Marbleized Iron, as one of the greatest discoveries of the age, and for which they received the GOLD MEDAL at the last Fair of the American Institute, and THE MEDAL at the Fair of the Metropolitan Mechanics Institute, held at Washington in February and March of this year.
This material, having a metallic basis, is more durable and cheaper than Marble; represents all sorts of precious Stones and the choicest Marbles, in more than sixty different varieties, are exact and surpassingly beautiful; it is capable of resisting a greater degree of heat, and it cannot be injured by the action of acids or oils. SILAS C. HERRING.
The manufacturing department of this Co. is under the superintendence of B. F. & J. P. Williams, the Inventors of the system, and the financial and general business department to that of John Ruston, to whom all communications may be addressed, at the Principal Ware Rooms, 813 Broadway, New York. ab5d3mPT

Important to Housekeepers.
SOMETHING better & more economical than Soda, Cream Tartar, or any other preparation in existence, for baking. Durkee's Chemical Yeast, or Baking Powder—For raising Bread, Biscuit, Fried, Griddle and Johnny Cakes, Puddings, Pot Pies, Corn Bread, Sweet Cakes, Apple Dumplings, Tea Rusk, &c., &c.
This article is one that every Family, Hotel, Boarding House, Eating Saloon, Ship, steamboat, Vessel, Canal Boat, &c., will find, upon careful trial, to be the very thing needed every single day of their existence.
Its most important advantages over the old system, are—
1. It saves the expense of milk, eggs, shortening, spoiled bread, and the trouble and expense of procuring good yeast—water only being necessary.
2. No time is required for the dough to rise before baking: consequently bread may be made in a few minutes.
3. A cook can always depend upon having light, sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.
4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a weak stomach, sweeter, whiter and lighter, than when made with yeast.
5. The bread made by fermentation does not afford the same amount of nourishment to the system, that it does when made with this compound; because the vegetable acid contained in fermented bread, prevents the proper action of the gastric fluid upon it, and consequently, a part only goes to nourish the body, while the acid tends to produce dyspepsia and its attendant evils.
This article has been thoroughly tested, and is universally liked. When used according to the directions, it is warranted to suit.
☞ Be careful to ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Principal office, 139 Water street, New York. Sold by the best grocers and druggists generally.

An examination of our Goods and Prices will, we think, convince Country Dealers that we can offer them fully as advantageous terms as any house in New York—if not better. We pay particular attention to the Auction Sales, and if Goods are selling at less prices than they can be imported—as is sometimes the case—we shall see that our customers will realize all the benefit accruing from such sales. We are at all times willing to exhibit our stock to buyers, whether they purchase or not; we do not consider it any trouble to show our goods.
☞ Cash and close time purchasers are especially invited to give us a call. From our facilities, we are convinced that we can sell them at such rates as must prove satisfactory.

BRADBURY'S
PIANO AND MELODEON WAREROOMS,
NO. 423 BROADWAY, NEW YORK.
FROM enlarging my Warerooms, I am enabled to keep a much greater assortment of Instruments than heretofore. All Pianos furnished are of an elastic touch, and of an even quality, and deep, full, rich and purely Vocal tone, qualities most desirable, inasmuch as the voice will assimilate to the tone of the instrument. All my Instruments are fully warranted, a guarantee accompanies every bill of sale, and are sold as low as can be purchased elsewhere. Second hand Pianos at all prices.
A NEW INVENTION.
The Organ Melodeon, with Two Banks of Keys, the only thing of the kind in the country, having Two Stops, Coupler, swell draw stops, &c., a sweet and powerful Instrument, pronounced by Organists to be superior for churches or Organ practice to the medium sized Organs, price $250. Also the common melodeon of all styles and prices. Being the exclusive Agents for these Instruments, orders are solicited. The usual discount made to the trade, and 10 per cent. to clergymen purchasing for themselves.

AUSTRALIAN STEAMSHIP COMPANY.
The Company's Magnificent New Steamship
"GOLDEN AGE,"
3,000 TONS, Will be Dispatched
For Port Philip, Melbourne & Sidney, Australia,
ABOUT THE 15TH OF MAY.
THIS Steamship is of the size and strength and in every way equal to the Collins line of Steamers, being 300 feet in length, 40 feet beam, and 32 feet hold. She is double diagonally braced, with iron bars, and every improvement that experience and science can suggest has been adopted. Her accommodations for First, Second, and Third Class Passengers, are believed to be superior to any steamer ever built. Her model is unequalled, and it is confidently expected that she will make the trip from New York to Australia within 50 days—stopping only at the Cape of Good Hope to coal. Passengers may rely that every attention will be paid to their wants, and that the ship will be liberally supplied with every comfort. An experienced Surgeon will be attached to the ship.
RATES OF FARE.—First Cabin Ladies Saloon, $375; First Cabin Upper Saloon, $350; Second Cabin Lower Saloon, $275; Third Class Forward, $150. Children under 12 years of age, half price.
Eight cubic feet of baggage allowed to each passenger; exceeding 300 pounds in weight. Books are now open. A remittance of one-half the amount will secure a berth—balance to be paid within 30 days before the time of sailing. For Freight or Passage, apply at the office of the Company, to

227 The Empire Clothing Store. 227
E. B. HURD & CO.,
HAVE opened the Store 227 Lake Street, which they are now filling with a new and complete stock of CLOTHING and GENTS. FURNISHING GOODS and which they now offer, wholesale and retail, at such prices as defy all competition.
E. B. HURD & CO. would respectfully intimate that having a large wholesale manufactory in Connecticut, from which they daily send out to all parts of the Union, an immense supply of every description of Clothing, they have facilities peculiar to themselves for supplying the public with a well made article, and of such style and workmanship as will insure the admiration of all who honor them with a call.
COUNTRY MERCHANTS, especially, will find it to their interest to give us a call before either making a purchase in Chicago, or proceeding to any Eastern market. We can sell at New York prices, less insurance freight, and the expense of a journey to that city. Our goods are made by first-rate workmen and at less expense than they can possibly be made for in a new city. As our terms are prompt payment and small profits, none of our customers will have to pay for other people's bad debts.
E. B. Hurd & Co., intend to make their establishment really The Empire Clothing Store, which shall be worthy the patronage of Gentlemen of refined taste, and where the farmer and the mechanic will be able to obtain the cheapest and best of Clothing.

The Excitement in Cincinnati.

Our friends in Cincinnati are at present involved in a serious controversy. The facts as nearly as we can ascertain, are briefly as follows:—"One Kirkland, formerly a Romanist, having changed his view in matters of religion, was one day addressing his fellow citizens in a place weekly used for public worship, upon the subject of Romanism. His strictures upon the Church of his fathers being rather severe, he was interrupted and violently assaulted by two Irishmen. Some members of the audience in turn seized upon and severely beat the intruders. Complaint was then made to the Mayor, and notice given to the reformer to cease his meetings. This he disregarded, and while addressing the people in the same place on the next Sabbath, was interrupted and silenced by order of the Mayor.

An indignation meeting was then held, in which the conduct of the Mayor was severely censured, and a committee of one hundred highly respectable citizens appointed to wait upon him with a request to resign his office. What further has been done we know not, but it strikes us as singular that one high in authority should thus attempt to arrest the progress of free discussion; and we cannot think that his course will be sustained by the enlightened and the liberal of the sect he seeks to favor. The love of free thought and free speech is too deeply rooted in the hearts of the American people to tolerate the slightest innovation upon the fundamental principle of civil and religious liberty. The New York *Times* says:

> The movements of the Mayor under the pretext of suppressing an outbreak, in silencing a Protestant preacher, in the Public Market Place, is warmly canvassed throughout the City and by the Press.
>
> The Mayor is charged with having acted under the influence and advice of Bishop Purcell, and to this is traced the general feeling of indignation among the Protestant classes.
>
> The elements at work in and around Cincinnati appear to be chiefly of foreign origin and of a politico-religious character. They have recently entered into the sub-divisions of the Democratic party in politics, and also into the Public School Question, and now turn to the discussions of the Pulpit and the Market Place. It is much to be regretted that such unseemly battles must needs be waged in a country which is tolerant to all sects and shades of doctrine, and liberal to the last degree in granting the rights of citizenship to immigrants from every land.

The Foreign Appointments.

The last accounts from Washington by Telegraph contains nothing positive respecting the foreign appointments. In N. Y. Herald of Sunday we have a report of a few hours later date which, though not positive, are worth the reading.

Washington, April 30—Midnight.

> We have the following nominations so confidently spoken of this evening among reliable men, that we shall speak of them as if definitely agreed upon:—
>
> Gen. Dix to France, to say nothing of Gov. Seymour to Russia, gives the soft shells the preponderance in the affections of the administration. But Gen. Pierce acts upon the doctrine that, *prima facia*, all are good democrats that united in his election, and on the Baltimore platform. That in his chart, and he does not go behind the record to inquire whether this or that man was a backslider in 1848, or a whig in 1840.
>
> James Gadsden, of South Carolina, for Mexico, will make abolitionists stir their stumps.—He was a secessionist in 1850 51 on the negro question. He it was who suggested the plan of establishing a footing for the South in California by carrying a good stock of slaves into the southern section of that country, so well adapted to slave labor: and while he is disposed to the most generous policy with Mexico, he is not the man, should Santa Anna desire to sell the Northern Mexican frontier, who will decline to buy for fear of another agitation of the slavery question.

With regard to Mexico we apprehend that Gen. Pierce will abide by our treaty stipulations, and repudiate any fillibustering.

Japan Expedition.

From present appearances, the Americans will take Japan, somewhere about the time the Dutch take Holland. The latest intelligence, relative to the progress of the expedition, is that the Susquehannah has met with an accident which will disable her from proceeding with the Squadron, and it is even doubtful where she will be able to return home for repairs. We fear we shall never hear of a United States steamer that has not broken down, one way or another, until a change is made in the way they are built. If government would give out contracts for the building of her ships, to some of our enterprising eastern shipbuilders, as any merchant would do, we should have, we think, a much better class of vessels.

English Seamstresses.—The London Times has vigorously and earnestly espoused the cause of the poor seamstresses of London—exposing the sufferings and cruel treatment to which they are subjected by the avarice of employers, and insisting upon the necessity of providing a remedy.

Captain Ringgold, commander of the North Pacific exploring expedition, has received his instructions from the Department, and the squadron will sail from Norfolk for the scene of operations in a few days. The squadron will consist of the sloop of war Vincennes, brig Porpoise, and propeller John Hancock, with a single tender and one store ship. The expedition is fitted out with especial view to the promotion of the whaling interests.

A large portion of the Northern Pacific will be examined, together with Behring's Straits, and the sea and adjacent coasts of Asia and America, and as much farther north as practicable.

This region is already much frequented by our whaling vessels; which, however, are almost totally unacquainted with the location of its hidden dangers. The Japan Islands and Seas, the Gulf of Tartary, China, Tooloo and other Seas thereabout, with the numerous Islands that dot them, and the Straits that divide them—all of which, though traversed by our venturous merchantmen, trading with the East Indies, are navigated almost without charts—will be examined, and correct charts made of them.

Father Gavazzi.

Gavazzi continues to address crowded houses in New York. He has given two free lectures for the Irish, the object of which was to show that the Papal nations are poor and enslaved, and necessarily so under such a system. At one of these lectures, some disturbance being anticipated from a portion of the audience who do not agree with Father Gavazzi in his ideas of the Papal System, a strong police force was in attendance, and performed their duty in a most efficient manner. Several persons who attempted by shouting and hissing to prevent the speaker from proceeding with his lecture, were immediately ejected from the room, much to the apparent gratification of the vast audience, who welcomed the Padre with loud and continued applause.

Death of Judge Burnet of Ohio.

Judge Burnet, one of the earliest settlers of Cincinnati, and for many years a man of note in Ohio, died at Cincinnati on the 27th ult., at the advanced age of eighty-two. He was a native of Newark, New Jersey, and a son of the late Dr. William Burnet, who served throughout the war of the Revolution. He graduated at Nassau Hall, Princeton, completed his legal studies with the late Judge Boudinot, of Newark, and was admitted to the bar in 1796. He immediately proceeded to Cincinnati, then a mere collection of log cabins, and commenced the practice of his profession, which he pursued with great success and usefulness, and his commanding influence and wealth appear to have kept pace with the luxuriant growth of the community around him. He was for many years a Judge of the Supreme Court of Ohio, served part of a term in the United States Senate, and declined a re-election. He was a Senatorial delegate to the Harrisburg Convention, having been chiefly instrumental in securing the nomination by that body of President Harrison, who was his early friend, and so continued till the time of his death.

Harbor Loan Vote at Milwaukee.—The vote at Milwaukee on Tuesday for the loan of the city credit to the amount of $50,000 for the Harbor at the Straight Cut was nearly unanimous. It stood 25 against, and 1103 for it.

Ole Bull in Detroit.—The agent of Ole Bull having applied to the city authorities for the usual license to permit the giving of the contemplated concerts in that city, a note was returned from the auditor authorizing the issue of a *free* license.

Austria's English Spies.

Under this head the *N. Y. Times* says in reference to the late search of Kossuth's house in London:

> It is well understood that the English government has, for some time, descended to the baseness of employing spies to dog the footsteps and watch the movements, and report the words and acts of those unfortunate friends of Freedom whom European despotism has driven to take refuge on English soil. This degrading system, so repugnant to the manliness generally ascribed to the English character, was originated by Lord Derby's Ministry,—the most intensely anti-liberal Ministry the English people have been doomed to endure for many years, and which they very naturally threw overboard at the first opportunity. But it seems to have been kept up, in all its rigor by the new Ministry, of which the Earl of Aberdeen is the nominal head. Not content with holding every denizen on English soil amenable to English law, and presuming every man innocent until he is proved to be guilty, the English Government plays the part of watch dog to Austria, and snuffs every breeze, and tracks every suspected person, in search of an excuse for inflicting renewed suffering on men whom Austrian despotism has already crushed. This is a noble and magnanimous *role* for the nation which claims to be the only free country on the face of the earth.

Of Jos. R. Miller of Jersey City, N. Y. in relation to tunnels for crossing rivers, invented by him; and proposing to construct one at his own expense as a trial one: to committee on harbor and bridges with the mayor and city superintendent.

The following communication from the City Superintendent, in reference to sewers, was accepted and ordered to be published in the Council proceedings:—

To the Hon. the Mayor and Common Council of the City of Chicago:

The undersigned, regarding a thorough and permanent system of sewerage of vital importance to the City, and believing the time has come when such a system should be adopted; and also that *economy of construction* and *durability* of material are essential elements in all systems, and that the Plan which he is about to propose possesses these requisites in an eminent degree, would respectfully beg leave to submit the accompanying plan and estimate for your consideration.

But before proceeding to the consideration of the construction of sewers, their form, material, &c, &c, I wish to make a few remarks on the *principles* upon which it has at various times been proposed to sewer the City.

Some have supposed, and some still think, that the City can be drained on the principle of *Declination*. But a few moments' reflection may convince any one that a system predicated on this principle would be very *limited in extent* and very *partial in its benefits*.

The general level of the streets adjacent to the river, is only about six feet above low water mark, and the natural surface of the ground only rises about two feet in a mile running south, four feet north and eight feet west. Now, experience has proved that a fall or decline of six inches in one hundred feet is necessary to render this principle efficacious. Therefore a sewer commencing at low water mark and running south, would crop out of the ground at about 1400 feet, north 2000 feet, and west 2800 feet, and those living at the extremities would have no depth of drainage, and all the natural advantages of what little elevation they have would be lost.

But another plan which has been proposed is, to sink large vats in the different divisions of the City, and drain every thing into them, and then pump up and carry off their contents.—Now, the immense expense of this process, together with the intolerable nuisance which would be erected in the vicinity of these cesspools, renders this plan both absurd and impracticable.

Another plan proposed, is to construct in the different divisions of the City, large or main trunk sewers, extending from the river to the Lake, and of sufficient capacity to admit a man to go in and clean them, and connect all other sewers with them. Now, to carry out this system, it would be necessary to construct a main sewer in Madison, one in Harrison, and one in Twelfth street, South Division, and one in Chicago Avenue, North Division, saying nothing about the West Division, which is not adapted to this plan. A sewer of the capacity above referred to will cost at least ten dollars per foot, or the enormous sum of one hundred and sixty thousand dollars. But it is to be remembered that this is only a preliminary step towards draining the city. It will require about the same amount of collateral sewerage with these main trunks, as it would to sewer the City without them. Therefore I conclude that the *great expense* of this system, if it were free from all other objections, is sufficient to prevent its adoption.

Other objections, and very strong ones, might be urged against this system, but I will forbear to mention them, and proceed to notice another *principle*, which, though not *written* in the books, is *written* in *nature*, and upon which I believe our city can be drained as thouroughly, as effectually, and as cheaply as any city in the United States. This principle may be called the deep or horizontal principle, and is beautifully illustrated by the ten thousand little streams which are interspersed through the flat Prairie lands of our State. The channels of these are generally quite narrow, but always *deep*, and although encroached upon by a luxuriant growth of vegetation, sometimes so as to be entirely covered over, yet they are never found choaked up. Our own Chicago river, the Calumet, and numerous other streams emptying into the Lakes—examples of the operation of this principle or law; which is, *that depth somehow or other compensates for declination*. But gentlemen, lest you should think me guilty of dealing in the fanciful, I will give one or two reasons, which to my mind are satisfactory why obstructions cannot, or do not accumulate in deep and sluggish streams as readily as in more shoal ones. When any animal or vegetable substance is thrown into them of a perishable nature, it being constantly immersed in water, is soon discomposed or reduced to a semi-fluid state, and thus moves with facility in any direction, offering no resistance to whatever there may be of current at any time. In case of other substances, wether they sink or swim, they are moved along with a more uniform velocity, not liable to overtake each other, nor to be forced into situations from which neither wind nor wave can extricate them.

But to return from this digression and generalizing, let us consider some of the advantages arising from a deep and horizontal system of Sewerage to the city generally.

The first and most obvious advantage is, that it gives to every man even those living at the extreme ends of the sewer the same depth of draining as those living at the mouth. Another advantage is that it gives a more sudden declination to all the collateral sewers, and hence the water will be thrown into the main sewers with greater rapidity and greater force, and this, as you will perceive, gives rise to other advantages. The water in case of storms is much sooner carried from the surface, and a much stronger current is produced in the main sewer which carries every thing before it and leaves the main trunks as it were swept and clean. But the great advantage of this system above all others is, that it admits the water from the river to flow freely through them; which, perhaps contributes more towards keeping them clear and clean than all other principles combined. How it does this may be a matter of speculation, but that it does it, is admitted by all who have examined the results of our experiments where this principle has been involved.

But, gentlemen, there is another matter of considerable importance deserving your attention—I mean the number, direction and location of sewers. In regard to number, I hold the more the better. The Chicago River and its Branches may be considered, and in fact do constitute the only main trunks into which all other sewers should terminate, and the greater the number the discharging points the better, for this will diffuse and disipate those noxious vapors which if concentrated in any particular locality would become an intolerable nuisance. Therefore let there be a sewer located in every street and alley, for instance in the South Division as follows:

State street from River to Van Buren st.
Dearborn street from River to Madison st.
Clark street from river to Madison street.
Lasalle street from river to Madison street.
Wells street from river to Adams street.
Franklin street from river to Madison street.

And one in each of the alleys running east and west, connecting either with the lake or south branch, and also with the above sewers, also in each of the streets extending from the above streets to the lake and south branch.

In the North Division, one in—

Wolcott street from river to Chicago Avenue.
Dearborn street from " "
Clark street from " "
Lasalle street from " "
Wells street from " "
Franklin st. from river to Ontario st.
Market st. from river to Ohio st

And in other streets and alleys same as South Division.

In the West Division there should be a sewer in each of the streets running east and west, and all others connected with them.

The question of sewers, inasmuch as they are in the streets, should be in or near the centre, so as to be generally accessible to all.

But, gentlemen, as I wish to lay before you some plans and estimates for the construction of sewers, I will leave this part of the subject, and simply observe that by the adoption of the horizontal system, you secure all the advantages of what elevation we have above the lake—the advantage of a deep drainage all over the city, and all the advantages derivable from the action of the lake and river water in them.

The plan of sewer to which I wish to call your attention, is very nearly the shape of those that we are now using, as you will see by reference to the drawings. But it is constructed of stone, (except the bottom, which is to be of 3 inch oak plank,) as follows:—Sides of flag stone 3 inches thick, and 20 to 24 inches wide, and 2 to 6 feet long; top of flag 4 to 5 inches thick, 30 to 32 inches wide and 2 to 6 feet long. The edges of these slabs being dressed straight and to the proper bevels, the top slab or cover having channel cut in lower side to receive the upper edge of the side pieces. The bottom is as above of 3 inch plank, with two pieces spiked on upper side, of a triangular shape, which give a kind of elipticel form to the bottom of the sewer, which experience has proved to be very favorable to the flow of water.

The relative cost of this and other plans that have been proposed from time to time, is about as follows, viz:

For an 18 inch pipe, vitrefied stone ware, recommended by Mr. McAlpine, put down per foot, lineal $2.50
Ohio stone ware, same size 2.25
Brick sewer 3.00
Gavell's plan of brick stone, same size 4.00
Proposed plan 2.00
Wood as now used 1.30

From which it appears that this plan is cheaper than any other proposed, excepting the wood, which is now in use; but which, from its perishable nature, should be discontinued.

All of which is respectfully submitted.

LOCAL MATTERS.

Sewerage.—The communication presented to the Common Council on Sewerage by Mr. Harper is worthy of serious attention. The subject is generally regarded by our citizens about as difficult of soltion as it is important, many contend that nothing but a most laborious and expensive system of artificial means, involving many hands and much powerful machinery, can suffice for draining the city, this one apparent difficulty has ever been deterred, some from residing here and others prophecy a great increase of sickness, arising from the want or imperfection in this department of the public economy. Mr. Harper has paid much attention to the subject, and has studied the different systems of sewerage in this country and in Europe, and of places situated like Chicago, and his opinion is that our city is advantageously situated in this respect. He thinks that the simple rise and fall of the water in the river and lake will be full enough to keep the sewers clean, if they are laid at low water mark, and made small, so that the important principle "can be made use of, that the force of a current of water is greatly increased by confining it on a small scale, at least we say, let one sewer of this kind be laid at once, so that the matter can be tested.

Shakspeare Readings.—On Friday evening Mr. M. B. Coombs will give a Shakspearian Reading at Tremont Hall. The name of Mr. Coombs has become quite familiar to us this winter for the frequent and commendatory notices of him in the Cincinnati and other papers. We also published some time since one of these notices which some will no doubt remember. Mr. Coombs is young in his profession and must necessarily stand upon his present deeds, but a love of his art contined with his past success are sufficient encouragement. He is personally known by some of our citizens, and there is no danger of a repetition of a certain farcical performance, we had in the winter, under the title of a reading of Shakspeare.—The following we clip from a Cincinnati Paper:

"Mr. Coombs' reading is original, and yet not affected; it is natural, and yet not a mere copy. It is a fresh and independant developement of the great authors thought, distinct from every other individual conception, and yet not different from the common ideal; with everything necessary to show it was Shakespeare, and yet enough of the life of the actor to impress it as a real and personal presence."

City Maps.—Henry Hart an artist, who has been engaged in preparing maps of several places at the west, Detroit, Toledo, Ann Arbor, &c, is engaged on a map of this city, which will represent not only streets and blocks but also every building within the precincts. Its size is 50 by 56 inches. The draft of one half the part south of Madison street is ready for the lithographic, and every one owning property in that part of the city, should call on Mr Hart immediately for the sake of making connections if necessary We refer to his advertisement.

The Circus.—Owing to the unpleasantness of the weather Mr. Merhling's Circus was not opened last evening. It will be opened this evening if the weather permits.

To Arrive.—The propellers Bucephalus and Forrest City cleared from Buffalo for this port, on Monday, and may be expected here on Friday.

☞ We noticed the propeller Delaware, yesterday morning, at Thomas Hale's dock. The D. is an old acquaintance, though we have not seen much of her during the last two years.

For Australia.—The sailing of the new steamship "Golden Age," from New York, for Australia, is postponed from the 15th of May to the 15th of June. She is a vessel of superior qualities, of 3000 tons, and will probably make the trip in 50 or 60 days. She offers great attractions to those wishing to go that way. See advertisement.

Musical Talent.—We had the pleasure of listening last night, in North Market Hall, to the singing of the excellent tenor, Conrad Zenzius, and his two accomplished sisters. The pieces—consisting of selections from the best German operas, as well as of simple ballads—presented a most interesting programme, and being performed with great artistic skill, taste and feeling, left an impression rarely equalled. Y. A.

☞ We would call attention to the advertisement of Dr. Duck giving notice of his removal.

City Parks.—We are glad to see that the articles originally published in our paper under the head of "A Plea for Public Parks," have been republished in a pamphlet form. They were written by J. M. Parker, Esq., of this city, and the interest taken in them and in the subject has induced him, at the request of his friends, to put them in a more permanent form. They contain the irresistible arguments and demands in favar of the subject, and are written in a forcible and attractive style. We hope soon to hear of a call for a public meeting for the consideration of this question, and in some way concentrate into efficient action all the public sentiment that is right on this point.

Weather-bound.—Three houses on Clark St., on their way south.

India-Rubber Manufactories.—We well remember the first India Rubber Shoes that came into market, thick, misshapen things, we should call them now, but then thought to be one of the great inventions of the age. It was the first use that the material was put to. Soon, however, it worked its way into suspenders, then into balls, clothes, beds, and a hundred other things, each year showing itself in different products. When its field for operations seemed to be narrowing down a little, Gutta Percha came to the rescue, and between them both, hardly an article is now manufactured, that does not need their assistance in some way. The latest use we hear of Gutta Percha is for covering pictures and valuable papers to preserve them from the wear and tear of time and rough handling; and at some of our Fancy Stores in Chicago, may be seen, in beauty and durability, quite equal to the shells they imitate, India Rubber Combs. We shall look next for tooth-picks, and then for some application of India Rubber to buttons, so that they will stay on.

The Crystal Palace.—The consulting engineers of the association for the Exhibition of the industry of all Nations, have assured the Courier that the Crystal Palace will be ready to open on the first of June.

It is said that five hundred packages have already arrived from foreign countries for the exhibition, and the owners of several of the most admired works of American sculptors have offered to add them to the exposition; among others, Powers' Eve, Greek Slave and Fisher Boy; Crawford's Flora; and Greenough's Chaunting Cherubs. It is also expected that the splendid service of plate presented by the Rothschilds to a gentleman in this country, will be exhibited, with a series of models of all the celebrated diamonds in the world. The multitude who visit this city during May to attend the various anniversaries will regret that the exhibition could not be opened in time for their gratification.

MARRIED.

On the 3d inst., by Rev. John Clark, Mr. Daniel Martin to Miss Almira Cash, all of this city.

Derangement of the Liver is one of the most common, as well as the most formidable of diseases known to American physicians. It had for years attracted the earnest attention of the medical faculty in all parts of the United States, and yet up to the time of the discovery of Dr. M'Lane's great Specific, it was almost beyond the reach of medical skill. Thousands had perished without even a hope of relief, and although thousands may yet be destined to feel the direful effects of this complicated disease, it is now, thanks to the research of Dr. M'Lane, most completely brought within the scope of medical control. The proprietors of the Liver Pills feel confident that they offer a remedy which has been fully tested by time, and which has never failed of success when fairly tried. These inestimable Pills may be purchased at Drug Stores in this city, and at country stores. my5

BY LETTERS PATENT SECURED IN 1849.—Pulvermacher's Patent Hydro-Electric Voltaic Chains, constructed to be worn under the garments, are the most wonderful discovery in medicine and electricity of the present day. They relieve, without pain or shock, instantaneously, acute nervous pains, such as head, ear and tooth-ache, rheumatic pains, tic doloreaux, &c., and by their mild but continuous and perceptible action on the body, diseases of years' standing, such as gout, local paralysis, nervous complaints, liver diseases, &c., disappear, as if by a miracle; they have been applied with the greatest success in all those dreadful diseases in children, commonly called convulsions, as also in cases of teething under difficulties and disorders of the bowels. They precipitate metals from their solutions, decompose water, deflect the magnetic needle, in short, show all the phenomenon of a powerful voltaic pile. The instruments producing these effects weigh about two ounces, can be folded up in a pocket-book, are always ready for instantaneous use, and will last a man his lifetime, guarding himself, family and friends, &c., against that number of diseases and complaints in which mild streaming electricity is a perfectly safe, certain, and wonderful speedy remedy. The price of a complete chain is from $1 to $5; batteries, $10 to $22.50. Incredible as may seem the above facts, any person can easily convince himself beforehand, at the depot, of their truth. The importance of the invention has been acknowledged in America by the Academy of Medicine of New York and the chains have been applied with great success in the medical colleges, the City, Bellevue, and Ward's Island Hospital, Brooklyn City Hospital, &c.; in Europe, by the Royal Colleges of Physicians and Surgeons in London; by the Academie Nationale de Medecin at Paris; by the Imperial Faculty at Vienna; by the Royal Faculty at Berlin; and other scientific institutions of the highest order, including the principal hospitals in Europe. The proprietors are in possession of testimonials to the same effect, from all the above institutions in America and Europe, as well as of the most eminent and distinguished members of the profession in both hemispheres, and invite the public to examine them. Full and illustrated descriptions, one for personal use and one for scientific men, with copies of testimonials and a number of cases cured in New York and Europe, may be obtained gratis, at the office. They will be forwarded, free of postage, to any part of the United States in answer to pre. aid inquiries, containing three cents postage stamps. J. AUSTRALIAN STEAMSHIP COMPANY. The Company's Magnificent New Steamship "GOLDEN AGE," 3,000 TONS, Will be Dispatched For Port Philip, Melbourne, & Sidney, Australia, ABOUT THE 15th OF JUNE. THIS Steamship is of the size and strength and is every way equal to the Collins line of Steamers, being 350 feet in length, and has engines of unusual power. She is double diagonally braced, with iron bars, and every improvement that experience and science can suggest has been adopted. Her accommodations for First, Second and Third Class Passengers, will be superior to any other steamer ever built. Her model is unsurpassed, and it is expected that she will make the trip from New York to Australia within 50 days—stopping only at the Cape of Good Hope to coal. Passengers may rely that every attention will be paid to their wants, and that the ship will be properly manned and officered. An experienced Surgeon will be attached to the ship. RATES OF FARE.—First Cabin Ladies Saloon, $425; First Cabin Upper Saloon, $400; Second Cabin Lower Saloon, $325; Third Cabin Forward, $200. Children under 12 years of age, half price. Eight cubic feet of baggage allowed to each passenger, and exceeding 200 pounds in weight. Books are now open, and a remittance of one half the passage will secure a berth, balance to be paid within 30 days before the day of sailing. For Freight or Passage, apply at the office of the Company. EDWARD & SON, Agts. 24 Broadway.

Merchant's Exchange Clothing WAREHOUSE. WE would say to our customers and dealers in Clothing in general, that our Stock this Winter will be fully adequate to the wants of the trade, embracing every style and quality of Garments, which we are prepared to offer at Wholesale and Retail, upon as reasonable terms as can be had at the East, being connected with a House in New York city, having buyers of long experience constantly in the market, and being Practical Tailors ourselves, thereby doing away with many expenses necessary to others, enable us to get up our goods as well, and at least at as low prices as others. Those going East to purchase are invited to call on Wm. Dunn & Co., 162 William street, or we pledge ourselves to sell in Chicago at Eastern prices; the difference in expense here will fully pay transportation. Dealers will find it to their advantage, we think, to purchase here on account of transportation and frequent delays, as well as keeping up a better assortment of sizes, etc., with a less stock by sorting up frequently through the season. IMPORTANT TO ALL
WHO USE
STEAM AS A MOTIVE POWER,
And desire Safety and Great Economy.
AN opportunity is now offered to all whom it may concern, to secure the exclusive right of manufacturing, using, and vending, in States and Counties,
IRVING'S
Circulating Safety Steam Boiler,
For Stationery Engines, Locomotives, Marine Engines on River, Lake and Ocean Steamers, &c. The advantages of this Boiler over all others now in use, are,
1. ENTIRE SAFETY FROM EXPLOSION, being no more liable to explode than an open caldron.
2. Less than ONE THIRD the amount of fuel is required to generate the steam obtained by other boilers of the same power.
3. The cost of construction is REDUCED ONE HALF.
4. They occupy but ONE THIRD the space of other boilers, and may be applied to any engine now in use.
5. The expense of Furnace Grates will be incalculably lessened by the small amount of fuel required, and the manner of using it.
The Company GUARANTEE the reality of the above advantages. Their conclusions are based on PRACTICAL RESULTS, many of these Boilers being now in use in and about this city. The inventor has not just succeeded, ... application, ... public. It stands alone and independent in its merits, and if it has the qualities claimed, which are undeniable: the public will at once acknowledge its superiority over any other motive power.
Terms of sale made known on application at the office of the "IRVING STEAM BOILER COMPANY," corner of Broadway and Park place, New York, over the New Broadway Bank.
Circulars containing terms of sale, &c., will be forwarded by mail if requested, address as above.

NOTICE.
From one of the sufferers of the late R. R. accident.
Notice is hereby given that on the 25th inst., at the time of the collision of the M. S. and M. C. Railroad, I lost among certain other property a Draft on the National Bank of Scotland, for the sum of £33, payable to the order of Oluf Peterson, (and by him endorsed Oluf Pederson, being the Norwegian mode of spelling that name.) All persons are hereby warned not to purchase the above Draft, as the payment of the same has been stopped.
At the same time and place I also lost my Pocket Book, containing a Three Dollar Bill, and a Receipt, given by the N. Y. and E. R. R. Company to K. I. Fleischer, for two barrels and one box of baggage. Any person finding either or all of the above articles, will confer a favor upon the undersigned by giving information or leaving them at the office of Chickering & James, Chicago.

LOCK HOSPITAL.

No. 150 Washington Street.

THE ONLY CERTAIN REMEDY FOR THE CURE OF Secret Diseases at 150 Washington street. By the strict system established at the Lock Hospital, 150 Washington st., all patients are secure of absolute privacy. The advantages of this system are too well known to need any comment. All who have any need of advice or attention from Dr. D., may confide in him with a full assurance of secrecy and certain hope of recovery. Some of the most learned and famous men in the country have been under his charge—men of genius, intellect and power—and in no instance has the strictness of privacy been violated.

Invalids must be cautioned against the illiterate and unlearned in science, who do so much injury by quackery and imposition. The Vegetable Medicines of Dr. D. are now sufficiently established, as the only certain remedy for Venereal complaints, and those who are afflicted with such complaints are seriously warned not to tamper with them, by trusting those who practice the abuse of mercury or balsam.

Dr. D. freely invites all troubled with disorders to call upon him. His charges are regulated by the circumstances of the case. No charge will be made where a cure is not effected. Dr. D. is a regular physician, having devoted many years to the exclusive study of these diseases, comprising, in their various shades, Gonorrhœa, Syphilis, Impotency, Strictures, Gleet, Scrofula, diseases of the bones, &c. Nothing is needed but to call upon him, to make everything satisfactory in a moment. Such is the absolute efficacy of the method of his cure, that no question can possibly exist about it, when once an individual becomes acquainted with the wholesome and certain process. It is but for a man to say he is afflicted, and see himself cured.

The greatest point for the consideration of everybody is, to avoid all communication with persons unqualified to give them relief. Serious and dangerous consequences ensue more than the world is aware of, from the treatment of quacks and impostors.

The only certain way is to visit the Lock Hospital, or Dr. D's office, at No. 150 Washington street, and at once place yourself under his care.

☞ Office will be kept open from 9 A. M. until 10 P. M.
☞ All letters (post-paid) will receive prompt attention. Any person wishing a private room, un licured, can have it by applying to Dr. D.

DR. ATKINSON,
Confidential Physician, 207 Randolph street, corner of Franklin, continues to cure all cases of disease of a Confidential nature, with secrecy and dispatch. His charges are moderate, success certain, and conduct honorable. Private Rooms, and entrance on Franklin street. Worst cases solicited. Letters from city or country, addressed to Dr. A., box 560, P. O., will meet due attention, and medicine can be sent secure to any part.

☞ DROWSINESS, Swimming of the Head, a roaring noise in the ears, headache, palpitation of the heart, &c.—Wright's Indian Vegetable Pills are a certain cure for the above unpleasant complaints, because they purge from the body those stagnant and corrupt humors which, when floating in the general mass of circulation, are the cause of a rush of blood to the head, giddiness, dimness of sight, drowsiness, pain of the head, and many other symptoms of a torpid and corrupt state of the blood.
Wright's Indian Vegetable Pills are also one of the very best medicines for the cure of indigestion, and therefore will not only remove the above unpleasant symptoms, but will most assuredly restore the body to a state of sound health.

BUFFALO AND NEW YORK CITY RAIL ROAD.
THE undersigned are authorized to contract Freights from Buffalo to New York via this Road, and also from Buffalo to Hornellsville, and all intermediate stations.
The New York and Erie R. R. from N. Y. to Hornellsville, and the Buffalo and N. Y. City R. R. from Hornellsville to Buffalo, affords the quickest and most reliable route for Freights from New York to Buffalo and the west.
The facilities for shipping to and from Buffalo by steam around the Lakes, and via the Mich. Central and Southern Railroads, give this a great advantage over the Dunkirk route. Greater dispatch may therefore be expected.

WISTAR'S
Balsam of Wild Cherry,
The Great Remedy for Consumption.
And the Best Medicine Known to Man
For Asthma of every stage, Liver Complaints, Bronchitis, Influenza, Coughs, Colds, Bleeding at the Lungs, Shortness of Breath, Pains and Weakness in the Side, Breast, &c., and all other diseases of the Pulmonary Organs.

A very important disease over which this "Balsam" exerts a very powerful influence, is that of a

DISEASED LIVER.

In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed, and in numerous instances, when patients had endured long and severe suffering from the disease, without receiving the least benefit from various remedies, and when Mercury has been resorted to in vain, the use of this Balsam has restored the Liver to a healthy action; and in many instances effected permanent cures after every known remedy had failed to produce this desired effect.

Besides its astonishing efficacy in the diseases above mentioned, we also find it a very effectual remedy in Asthma, a complaint in which it has been very extensively used, with decided success, even in cases of years' standing.

READ THE FOLLOWING.

We are just in receipt of the following voluntary tribute to the curative powers of Wistar's Balsam of Wild Cherry, from E. Hall, M. D., of Mt. Clemens, Michigan, who is a physician of high standing, and an extensive druggist.

MT. CLEMENS, Michigan, Oct. 20, 1849.
To all the afflicted this may certify that Mrs. B. Roberts, of this village, three or four weeks after confinement, was attacked with a violent cough and great prostration, and seemed hastening to the grave with rapidity. I advised her to use Wistar's Balsam of Wild Cherry—she did so, and with that valuable medicine alone, in the space of three or four weeks, was restored to health, and is now a living proof of the value of Wistar's Balsam of Wild Cherry.
E. HALL, Physician and Druggist.

Read and be convinced still further of the remarkable virtues of Wistar's Balsam of Wild Cherry:
MESSRS. SANFORD & PARK—Gents: As a matter of justice to you, and for the benefit of the public, I would offer the following statement of a cure effected by your medicine, known as Wistar's Balsam of Wild Cherry. In the spring of 1847, my wife was severely attacked with peripneumonia, or pleurisy, which resulted in a deep seated pain in the right side, accompanied with a severe cough. She was attended by some of the best physicians in Chicago, but to no purpose; for weeks she suffered without relief, coughing incessantly night and day. I came to the conclusion that all the remedies known to physicians could not help her and was induced to try your Wild Cherry. I procured one bottle, and commenced using it according to directions; before it was all gone the cough stopped, the pain in her side left her, and with the aid of another bottle, she was restored to perfect health. In consideration of these circumstances, I would recommend it to the public as a valuable medicine.
Yours, Respectfully, R. N. CARRATT.

HEAR THE PRESS.
From the Fall River (Mass.) Monitor.
"This medicine, prepared by a long experienced and skilful physician, tested and approved by a great number of intelligent, distinguished and respectable persons in various parts of the country, is now received and used with entire confidence, and it is also recommended as a valuable medicine for other diseases, such as colds, coughs, and particularly those diseases whose tendency is to consumption."
From the Boston Mercantile Journal.
"This medicine, coming from a respectable source, and carefully prepared by an experienced and skilful physician, is received by the public with confidence. Its efficacy has been proved in many obstinate cases of disease, and its fame has rapidly extended. It has been extensively used in every part of the country, particularly in the Middle and Northern States, and strong testimony from intelligent and highly respectable persons has been adduced in favor of its merits as a remedy for colds and coughs, affections of the chest, diseased liver and dyspepsia."
From the Cincinnati Daily Times.
"We would advise those of our readers who are laboring under an affection of the lungs to make immediate trial of this truly excellent medicine. The most respectable and intelligent families of our city have adopted it as a favorite medicine, and persons predisposed to consumption, who have used it, speak in the highest terms of its efficacy."

INTERESTING CORRESPONDENCE.
The afflicted are requested to read the following letter, received from James Kuss, Jr., publisher of the Shelbyville, (Tenn.) Expositor:
SHELBYVILLE, Tenn., Dec. 9, 1848.
J. D. PARK—Dear Sir: I take it as a duty I owe to the community and particularly to the afflicted, to state what I know of Wistar's Balsam of Wild Cherry. For a number of years my wife has been afflicted, and was laboring under a disease of the lungs, ... [illegible] ... "It's equal success."
Yours, JAMES RUSS, Jr., Editor Shelbyville Expositor.

ZINC PAINTS.
The New Jersey Zinc Company
Are now manufacturing these Paints, of superior quality.—Their advantages over other Paints are:
NEW JERSEY ZINC CO. lbs. No. 1. OR SNOW-WHITE
1st. They are not Poisonous.—Sleeping apartments recently painted, may be occupied with impunity and painters using these paints are not subject to the distressing maladies arising from the use of Lead.
2d. Their Beauty and Durability.—Zinc, on inside work, becomes much harder than any other Paint, and is not easily soiled; is whiter than pure white Lead, and as it retains its whiteness and brilliancy unaffected by bilge water, coal or sulphurous gases; it is unrivalled as a paint for ships and steamboats. For outside use, exposed to weather or water, Zinc Paints will retain their color and preserving qualities long after other Paints are destroyed.
3d. The White Zinc Paints will cover (equal weights) about two thirds more surface than pure lead—this, in connection with their greater durability, make, in the long run, the cost of painting with Zinc less than half the cost with Lead.
Brown and Brown Stone Color Zinc Paints, which are sold at low prices, are well adapted for painting coarse out-buildings, and all metallic surfaces, particularly Iron, which they effectually protect from rusting, exposed either to heat or weather.
These Paints are prepared in the same manner, and may be used in all respects like White Lead. They are for sale by many of the principal dealers in the cities and large towns of the Union, and by the Company's Agents,
MANNING & SQUIRE, 45 Dey st., New York.
N. B.—All Paints manufactured by the Company are warranted pure.

SUPERIOR
FIRE AND WATER PROOF
ROOFS,
Manufactured by B. F. Barrett & Co.
CLARK STREET.........Over the Post Office.
THESE ROOFS, familiarly and extensively known as "Barrett's Felt and Composition Roofs," are conceded to be altogether superior to every other kind of roof now in use. From long experience in the business, and from some important improvements in their Composition—the results of careful observation and experiment—the Manufacturers are confident of being able to produce an article in their line, which cannot be surpassed; and they doubt if it can be excelled elsewhere in our country. The various points in which their Roofs excel all others, will be shown, and ample evidence of their great superiority to tin or iron in respect to their fire and water resisting qualities, will be furnished, on application, to all interested.
All orders executed promptly, in the best manner, and with the best materials.

Be it ordained by the Common Council of the City of Chicago:
SEC. 1. That from and after the passage of this Ordinance, it shall be lawful for draymen to charge the following rates: When the distance shall not be greater than one mile, twenty-five cents. When the distance is greater than one mile and within the city limits, forty cents.
SEC. 2. That so much of section Nine, Chapter Eighteen, Revised Ordinances, as relates to charges to be taken by draymen, be, and the same is hereby repealed.

AN ORDINANCE
Supplementary to Chapter XL, of the Revised Ordinances, concerning "Public Runners and Porters."
Be it ordained by the Common Council of the City of Chicago:
SEC. 1. No person shall act as Runner or Porter for, or in any manner solicit or ask the patronage or custom of any traveler or other person, for any public house or hotel, steamboat, canal boat, propeller, rail road, or other conveyance or transportation company, at any rail road depot or station, steamboat, canal boat or propeller landing or dock, or any place in this city, other than at the house or hotel, depot or station, landing or dock, of such person, company or corporation by whom he shall be employed, unless he shall first obtain a license as hereinafter provided, and unless he shall, when so acting as Runner or Porter or soliciting custom or patronage, wear conspicuously in front of his hat or cap, or breast, a badge with the name of the house, hotel, boat, company or line of conveyance for which he is acting, painted or engraved thereon in legible characters of not less than one inch in length each character or letter.
SEC. 2. No person shall at any railroad depot or station, steamboat or other boat or propeller landing, dock, or other place in the city, ask or solicit any traveler or other person to ride in or use any licensed hackney coach, cab, omnibus or other vehicle, unless such coach, cab, omnibus or vehicle shall be licensed for or be employed by and running for the proprietor of some public house or hotel in the city.
SEC. 3. The Mayor is hereby authorized, in his discretion, to license any person of good character to act as a porter or runner in the city, upon such person's making application to him, and with one or more sureties, to be approved by the Mayor entering into and executing an instrument of writing by which the said applicant and his sureties shall jointly and severally agree, to pay to the city of Chicago or to such person or persons as may be entitled thereto, all penalties, fines, forfeitures and damages that may be incurred or caused by said applicant, by or for reason of any violation of any ordinance or law of the said applicant, or for any act or thing done or omitted by him while acting as such porter or runner.
SEC. 4. Any person who shall violate any of the provisions of this ordinance, or who shall wear a badge as hereinbefore provided for without having first obtained a license, to act as runner or porter, or who having obtained a license, shall permit or allow another not licensed as aforesaid, to wear his badge, shall forfeit and pay a penalty of not less than five nor more than fifty dollars, or be imprisoned not exceeding ninety days, or both, in the discretion of the court or magistrate convicting; and shall moreover be liable to have his license or the license for the carriage, cab, omnibus or vehicle of which he may be driver revoked by the Mayor—who is hereby authorized to revoke such licenses, for good cause, in his discretion.

HYDRANTS AND COCKS.
BARTHOLOMEW'S
Patent Self Acting Safety-Valve Hydrants and Cocks,
ARE designed to avoid the unnecessary waste of water, being always shut when not held open, are substantially made, durable, not likely to get out of order, will not burst the service pipe, but act as a relief valve, admitting the use of lighter pipe than is required for cocks of most other construction, are not likely to freeze; and not injured by being frozen; not left running constantly or by children (being self-stopping.) The valves being operated by simple vertical action, are not injured by muddy water, and are very durable. Easily repaired, by substituting a new valve, or if the internal working parts of the hydrant may be taken out in one minute and replaced, without any digging or stopping the water off.
THE SINGLE VALVE COCK is adapted to Hopper basins, Urinals, &c. for common use, or placed under the seat out of sight, give a good supply, require no care in using, always shut when not in use, being self-stopping.
THE DOUBLE-VALVE COCK is used with a receiver, gives a uniform supply of water each time used, taking no more water than the receiver will hold, is durable, not liable to get out of order, and well adapted to buildings where the economical use of water is desired. In the use of the DOUBLE COCKS, a cistern, service box, ball cock, &c., is not required; one service pipe will supply any required number of these valves, and will give a full head of water throughout the building, and will need no care in using, always left shut. THE CROTON WATER BOARD adopted the use of these hydrants for streets in 1849, and are in extensive use in New York and various other cities.
The numerous certificates, diplomas, medals, (including one awarded at the World's Fair, London,) and the increasing demand for these articles, indicate the general approval of them in various cities in the United States where introduced, and are worthy the attention of water commissioners, real estate owners and the public. Orders addressed to the manufacturer F. H. BARTHOLOMEW, No. 86 Marion street, New York, will have due attention.

GOVERNORS FOR STEAM ENGINES.
THE SUBSCRIBER having the General Agency for the sale of Pitcher's Hydraulic Governors, the only one that received a Medal at the Fair of the American Institute in 1852, is now preparing to attach the same to Steam Engines, and warrants them to give a regular and steady motion to the engine. Engines making fifty revolutions per minute, can be held, regardless of the kind of work to be performed, so as not to vary more than one half of one revolution per minute. For further particulars address
T. SWAN, Jr., Care of Thompson & Hitchcock.

SCOVILLE & SONS'
Chicago Car Works and Steam Engine and Machine Manufactory.
THE subscribers would respectfully call the attention of Railroad Co.'s and officers in charge of Railroads in the West, to this establishment situated at the corner of Canal and Adams streets, *West* Chicago, where they are at present exclusively engaged in the manufacture of road cars.
They have recently erected a spacious Car Shop and a Foundry, in addition to their former Steam Engine and Machine Works, expressly for building Cars, and have concluded arrangements at the East for a full supply of Ames' Car Axles, the New England Car Company's Springs, and also for the exclusive right to manufacture Washburn's celebrated Patent Car Wheels. They have also contracted for a large and constant supply of the best Michigan Lumber, and are now fully prepared to receive orders for, and manufacture Cars of every description, and in any number, and in a manner which they warrant to be equal in materials and workmanship, to any made in the United States.
The subscribers are experienced in Car Building, are all practical mechanics, superintending every branch of their business in person. [illegible]
They take the liberty of referring to J. B. Turner, President and Superintendent, and John Van Nortwick, Chief Engineer on the Galena and Chicago Union Railroad.
The subscribers also manufacture Steam Engines, Mill Gearing and Machinery generally, including Gates' Patent Screw Cutters, (in the patent of which they are joint proprietors with Mr. Gates,) Daniel's Wood Planing Machines, Turning Machines, Sash and Door Machines, &c. Orders for anything in their line are respectfully solicited, and will receive prompt attention.

FAIRBANK'S PATENT
PLATFORM AND COUNTER SCALES
OF EVERY DESIRABLE SIZE AND MODIFICATION,
FOR SALE at Manufacturer's prices, by C. L. HARMON & CO., 197 South Water street, Chicago, and by E. H. CHADBOURN, Agent.
STATE OF NEW YORK, CANAL COMMISSIONER'S OFFICE, ALBANY June 21, 1852.
MESSRS. E. & T. FAIRBANKS & CO.—Gents.—Your favor of the 18th, asking my views of the WEIGH LOCK SCALES manufactured by you, and introduced upon the Erie Canal, is duly received.
In the report of the Canal Commissioners, submitted to the Legislature 1st of January last, I took occasion to express my satisfaction with your Scales, and have since seen no reason to change my mind.
I have no hesitation in saying that they have fully answered our recommendation in every particular. Their capacity for strength is fully equal to sustain the required burthen—they are not liable to get out of order or repair—the arrangement of the Weighing Beam is admirably adapted to obtain rapid results. I know of no scale superior to them, in this or any other country.
In great haste, yours truly,
JNO. C. MATHER, Canal Commissioner.

CHILSON'S PATENT FURNACES,
FOR Thoroughly warming Dwellings, Churches, School Houses, Stores, &c. Sizes adapted to all classes of buildings.
This Furnace has received the FIRST PREMIUM MEDALS at all the principal Fairs in this country, and the PRIZE MEDAL, at the World's Fair, London, and has also received the approbation and recommendation of every scientific gentleman who has examined its principles. It possesses the following advantages:
1. Great power of warming, by an abundant supply of fresh healthful, warm air.
2. Economy in fuel.
3. Desirable materials and substantial construction.
4. Simplicity of arrangement, rendering it easily understood and managed.
5. Impossibility of setting the buildings on fire in which they are located.
All sizes of the above Furnaces, for sale and put up in complete order, by
RAYMOND, WARD & CO., Agents of the Patentee.

IMPROVED FIRE KING SAFES.
J. M. B. DAVIDSON, MANUFACTURER, Albany N. Y.—These safes are fast coming into general use. Having been severely tested in large fires in the Eastern cities, they are what their name purports, thoroughly FIRE-PROOF. They are provided with Yale's Patent Anti-Gunpowder Locks, which have always resisted the attempts of the most expert rogues, who have, in some instances, expended hours of fruitless toil in trying to fire them.
By the following extract from the Albany Express, it will be seen that one of these Safes has endured one of the severest tests imaginable.
[illegible]
The subscribers have a full supply of the above Safes on hand. Their sales recently have been large, and all purchasers have been well pleased, as they are entirely free from any dampness. We sell at Mr. Davidson's lowest Albany price, adding only transportation.

MALONE SAND STONE.
ARRANGEMENTS have been made by the proprietor of this beautiful and useful article, with the view of supplying the public demand.
Orders will be received by the undersigned for Door and Window Sills and Caps, Door Steps, Underpinning, Flags and Slabs, in almost any shape used in building and making.
For Flags this stone is unsurpassed for beauty and durability. It is peculiarly appropriate for Garden Walks, and makes the best Floors for Cellars, Basements, Public Buildings, Halls, &c. Platforms for Door Steps and other purposes, can be had 4 ft. by 8, and larger if desired. The color is of a cream or straw color. It varies in thickness from 1 to 8 inches, the surface is straight, and nearly as level as a well sawed stone plank. These stones are from a quarry recently opened at Malone, N. Y., on the Ogdensburgh Railroad, midway between Ogdensburgh and Lake Champlain—and in Boston, they are pronounced, for walks, the most beautiful Stone ever used there.
The undersigned are Agents for the sale of this Stone, and invite the public to call on them and examine it. It may also be seen on the walk in front of the Store of L. D. Olmsted & Co., Lake street.

Wholesale Druggists,
140......LAKE STREET, CHICAGO......140
WOULD respectfully call the attention of Dealers to their large and well selected stock of Pure Drugs, Medicines, and Chemicals, Dental and Surgical Instruments, Paints, Oils, Brushes and Window Glass.
Also, a large assortment of Druggists' Glassware, Daguerreotype Apparatus, Plates and Cases.
Pure Wines and Brandies for Medical use.
Our facilities for purchasing direct from the manufacturers and importers are such, that we are enabled to sell at very low prices for cash.
Our stock will compare in quality and variety with any in the East, and we think it will be for the interest of the Western Druggist and Merchant, to examine our stock before going east, as we are disposed to sell at as low prices as articles can be furnished at the West. We are Wholesale Agents for, and dealers in the following Popular Remedies.
London's Family Medicines.
Green's Oxygenated Bitters.
Batchelor's Hair Dye.
Storm's Cough Candy.
[illegible]
Moffatt's Pills and Bitters.
Wright's and Brandreth's Pills.
Ayer's Cherry Pectoral.
Wistar's Balsam of Wild Cherry.
Lyon's Kathairon.
Barry's Tricopherous.
Fahnestock's Vermifuge.
Mrs. Betts' Supporters.
Cod Liver Oil.
Radway's Ready Relief.
And all other useful Patent Medicines, which will be sold at the Proprietor's prices.
Lard Oil, Star Candles and Linseed Oil, supplied at manufacturer's prices, and of superior quality.
Orders from the interior promptly and carefully attended to.
Cash paid for Flax Seed.

Wholesale Drug Store.
113......LAKE STREET......113
JOHN SEARS, JR.,
(AT THE OLD STAND OF L. M. BOYCE.)
WOULD respectfully invite the attention of Druggists, Physicians and Country Merchants, to his stock of Foreign and Domestic Drugs and Medicines, Chemicals, Perfumery, Paints, Oils, Varnishes, Dye Stuffs, Brushes, Window Glass, Druggists' Glassware, Pure Wines and Liquors, etc., etc.
This stock was selected with particular reference to the wants of country druggists, physicians, merchants, and for the wholesale trade generally, and will be sold on as favorable terms to the purchaser, to say the least, as can be afforded by any house in the West. Additions will constantly be made to the present extensive stock to answer the increasing demand.
J. S. is General Agent for all the Popular Family Medicines that are of any value, which will be sold to the trade at proprietors' prices. Among them are Dr. Jayne's Family Medicines, Wistar's Balsam of Wild Cherry, Rogers' Syrup of Liverwort, Tar and Canchalagua, Dr. Houghton's Pepsin, Dr. Plumleigh's Plaster; Hoffland's German Bitters, Green's Oxygenated and Blake's Bitters, Bristol's, Townsend's, Sand's, and Playgrove's Sarsaparillas; Rushton & Clark's and Scott & McKesson's Cod Liver Oil; Dalley's, McAlister's and Sloan's Ointments; Storm's Scotch and Iceland Moss Candies, and nearly all the popular Pills and Liniments of the day.
Country Dealers are requested to call and examine Goods and Prices, both of which will be found satisfactory.
Orders will receive prompt attention, and executed at as low prices as if the person were present. Goods will be carefully packed and warranted to please.
J. S. respectfully solicits a continuance of the liberal patronage heretofore extended to the late firm of Sears & Bay.

Drug and Prescription Store.
Corner of Randolph and State St., Chicago, Illinois.
WM. McMILLAN,
SUCCESSOR TO SEARS & BLOUNT.
RESPECTFULLY solicits the attention of his friends and the public in general, to his stock of Drugs, Medicines, Chemicals, Perfumery, Fancy Articles, Paints, Oils, Dye Stuffs, Brushes, Window Glass, Glassware, Pure Wines and Liquors, &c., and hopes by strict attention to business, to receive a share of their patronage. Personal superintendence will be given to the compounding and dispensing of Physicians' Prescriptions and Family Medicines, and particular attention is invited to his stock of Select Powders and Extracts for these purposes.
Physicians and country orders filled with promptness and dispatch.

SWAIM'S
CELEBRATED PANACEA.
FOR THE CURE OF
INCIPIENT CONSUMPTION,
Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from impurities of the Blood, and the effects of Mercury.
SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures [illegible]
It has been used in hospitals and private practice, and has had the singular fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by
W. Gibson, M. D., Prof. of Surgery, Pa. University.
Valentine Mott, M. D., Prof. of Surgery, N. Y. University.
W. P. Dewees, M. D., Prof. of Midwifery, Pa. University.
N. Chapman, M. D., Prof. of Physic, Pa. University.
T. Parke, M. D., Pres't College of Physicians, Phila.
Dr. Del Valle, Professor of Medicine, Havana.
Jose Eourenco de Luz, Prof. of Surgery, Lisbon.
J. Chipman, Member Royal College Surgeons, London.
G. W. Irving, late Minister to Spain.
Sir Thomas Pearson, Major General British Army.
[illegible]
And also, the wonderful cures effected by Swaim's Panacea have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.
The retail price has been reduced to $1.50 per bottle, (containing three half pints) or three bottles for $4.
Beware of Imposition.
Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:
"SWAIM'S—PANACEA—PHILADA."
and having the name of JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork [illegible]
Also, Swaim's Vermifuge.
A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.
Prepared only at SWAIM'S LABORATORY, THE OLD STAND, Seventh street, below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.
CAUTION TO THE PUBLIC.
Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name of SWAIM is spelled correctly on the bottles and labels, or they may be imposed on by medicines made in imitation of them by persons bearing a somewhat similar name, well calculated to deceive.

THE CHICAGO TRI-WEEKLY TRIBUNE is published Tuesday's, Thursday's and Saturday's, in time for the earliest morning mails. It is of the same size with the large Morning Daily and contains all the reading matter of two days. This is an excellent edition for residents in the country. It will be furnished to mail subscribers at the low price of $4.00 a year in advance.

THE CHICAGO WEEKLY TRIBUNE contains all the valuable reading matter of the Daily, comprising the latest intelligence by Telegraph and the Mails, Market Reports, Literary Reviews, one choice Story each week, and excellent Home articles, and furnishes more reading than the large sheet of the New York Weekly Tribune. It is published every Friday at the low price of $2.00 a year in advance. Ten copies to one address, $15.00. TWENTY COPIES TO ONE ADDRESS $25.00.

CHICAGO DAILY TRIBUNE

The Publishers of THE TRIBUNE deem it not inappropriate at this time to make a brief statement of their purpose and aim.

1. The first essential of a good Daily consists in its being a *Newspaper*. News—accurate, reliable, varied and fresh, is its life blood. The furnishing its Readers with the latest and best information of each of the manifold changes in events and developments, occurring throughout the world as are of special interest to the people of Chicago and the West, will be the leading characteristic of THE TRIBUNE.

2. The candid and thorough discussion of those principles which underlie all facts, is also an essential of a good public journal. In this department THE TRIBUNE will strive to uphold the Truth and the Right. Established on an independent foundation, it will seek to maintain its position by the fair expression of considerate, yet decided opinions. It will defend whatever it regards as lawful, just and sound, and discountenance all that is false, factious and fraudulent.

3. For the efficient carrying out of its design, THE TRIBUNE is arranged in eight Departments, to each of which a competent and responsible person is wholly devoted. Of these the Commercial Department is under the charge of T. A. STEWART, Esq., one of the founders of THE TRIBUNE, whose established reputation throughout the West as a Commercial Editor, saves the necessity of commendation. The Home Department, which is edited by a Lady, has been added lately for the sake of making THE TRIBUNE a welcome visitor to the HOME CIRCLE, as well as to the counting room and the office.

4. Arrangements are completed, for *Correspondence*, from New York, Washington, Philadelphia, Baltimore, Boston, Cincinnati, New Orleans, St. Louis, and the Capitals and larger towns of our own and neighboring States. Letters will be received also, during the year, from at least four regular correspondents in Great Britain, France, Italy and Germany. THE TRIBUNE's corps of Letter Writers has been made up with care, and includes gentlemen of undoubted ability, accomplished education, and high standing in the country.

5. THE TRIBUNE will support a system of national policy that shall defend our honor abroad and maintain our credit at home. It will advocate a discriminating Protective Tariff, Harbor and River Improvements; the donation of the Public Lands to actual settlers; the solution of agitating Foreign Questions by honorable negotiation, unembarrassed by lawless encroachment; direct appeal to the PEOPLE, so far as possible, on public questions and public officers; and the leaving the South to bear the heavy burdens and heavier responsibilities of its peculiar institution, without irritating interference by the North for its removal, or aid from the national government for its extension.

Its hope of a high destiny for this Land of Freedom is founded on its Faith in Progress as the best Inspirer, in the Past as the best Teacher, in the People as the best Sovereigns, in Whig Principles as the best Policy, in Republicanism as the best System, in Christianity as the best Regenerator, and in THE WEST as the great arena.
